

CHALLENGE #1: MOBILE TELECARE

- How to use mobile platform to get faster and better connection and services in medical care and aid?
- How to use mobile/portable devices to motivate patients to collect data about their health status regularly and how to use the data to improve treatment?
- How to optimize common healthcare processes to save time of staff and bring more efficiency?

Mentor – Milan Steskal

Milan is co-founder and CEO Mentegramu. The company was born from the void between doctors and patients with conditions like depression, substance use, or diabetes, to make sure patients never have to face their condition alone. Mentegram helps physicians improve patient outcomes while increasing practice efficiency and revenue.
